PROFILE

A motivated and dynamic Electronics and Communication Engineering graduate with hands-on experience in embedded systems, PLC programming, and cloud technologies. Demonstrates strong leadership, multitasking, and collaboration skills through participation in technical projects and internships. Seeking to apply my skills in embedded development and automation in a progressive organization.

PROJECTS

- Adaptive Front-End Utilizing DNN for Detection of Replay Attack
 - Designed a system that detects replay attacks using Deep Neural Networks (DNN).
 - Enhanced the security layer for data transmission.
- Automatic Trash Bin System (Minor Project)
 - Developed an embedded system to automatically open the trash bin lid when a user approaches.
 - Focused on hygiene and touch-free waste disposal.

INTERNSHIPS

- Embedded System Developer – AICTE & Eduskills
 - Gained hands-on experience in embedded systems development.
 - Worked with microcontrollers and real-time applications.
- PLC Intern – Visakhapatnam Steel Plant, RINL
 - Trained in basic PLC operations and control systems.
 - Learned industry-standard automation processes.
- Cloud Virtual Internship – AICTE & Eduskills
 - Completed virtual internship focused on cloud infrastructure fundamentals.

EDUCATION
